

“Whip Beater™” Fractal Antenna

- **Whip Replacement with Better Performance**
- **F-L-A-T form factor, SMALL size**
- **Internal Placement now Possible**

FRACTAL’s ‘Whipbeater™’ antenna **replaces** the stubby whip with something far better. Flat profile and smaller size allow placement **INSIDE** (nonmetal) housing for protection from vandalism and seamless, eye-pleasing wireless integration. Superior performance to board mounted antennas and far better than external stubbies. Part-less design means no future breakdown. Perfect for : Indoor wireless, remote wireless, asset monitoring, campus wireless, WIFI and many other apps.

Azimuthal power pattern. DBi values when Internally Mounted at 915MHz

Other versions available. 2.4 GHz version ; multiband; and custom

Frequency	Single band 902-928MHz and other ISM bands, or multiband/custom
Power Pattern	Omni
Power	Up to 50 Watts Continuous
Polarization	Linear
SWR	<2:1
Gain	Dipole unity
Weight	1/4 Oz & NO COMPONENTS
Size	Varies by version, Example: 7.5 x 3.5 cm for 915 MHz.
Components	None
